

ADVANCED WIRELESS ROUTER

Calix 844E Gigacenter

Are you getting optimum performance from your wi-fi network?

As technology advances and available bandwidth increases, your old router may not be able to support higher Internet speeds and even certain wireless devices. DRN's advanced wireless router, Calix 844E Gigacenter, allows for you to get the highest Internet speed on all your equipment.

The advanced wireless router comes with a customer web interface that allows you to:

- see what devices are connected and how a device is connected to your network
- parental controls - set time limits on certain devices
- set and update Wi-Fi password
- and more!

PURCHASE

- \$199.95

LEASE

- \$2.95 per month
